ABOUT THE PROJECT

With its state-of-the-art infrastructure and strategically located and landscaped green spaces, Lotissement Pierrefonds's commercial and residential plots of land offer a pleasant and relaxing living experience only minutes from Quatre Bornes.

The project has a direct connection to Palma Road (B2) through newly built accesses and will soon benefit from the new Flic en Flac bypass linking La Marie in Curepipe to Flic en Flac in the West. With its proximity to major developments and amenities including Ebene Cybercity, popular shopping malls, town centres, public and private schools as well as universities, it is ideal for those in search of an urban lifestyle.

Lotissement Pierrefonds will be regulated by modern yet flexible architectural guidelines to ensure a coherent and harmonious environment. The morcellement will be equipped with footpaths on both sides of all internal roads, with the safety of children and pedestrians of paramount importance.

The project's modern infrastructure includes a direct supply of potable water, electricity, storm water drains, footpaths, tarred roads, and a sewer network all built to the latest specifications by contractors.

Residential plots range in size from **295m²** to **857m²**, with prices starting from **MUR 20,500 per toise**.
